ABOUT ME

Software developer programming since the age of 15, with experience building web, mobile and AI applications. Passionate about solving real-world problems, learning new technologies and turning ideas into impactful products

TECHNICAL SKILLS

PROGRAMMING

Python • C • C++ • C# • Java • SQL

FRAMEWORKS

React • React Native • Firebase • PyTorch • Expo • GitHub Pages

TOOLS

Git • Excel (Advanced) • Wireshark • Photoshop • Claude • Antigravity • Codex

LANGUAGES

- **Hebrew** - Native
- **English** - Native (Lived in Congo DRC for 6 Years)
- **German** - A1 (University of Munich Course)

INTERESTS

- AI
- Mobile Development
- Product Design

VOLUNTEERING

Gan Yavne Logistics Center

Co-founded the logistics center following October 7th (Iron Swords) and **developed the logistics tracking system** supporting the distribution of 100,000+ meals and supplies to 70,000 citizens and soldiers.

President, Interact Club (Rotary)

- Elected President after two years as an active member.
- Led volunteers and managed community projects and partnerships.
- Represented the club in national and international activities.

EDUCATION

B.SC. DATA SCIENCE & ENGINEERING

Present (2024-2027)

Technion - Israel Institute of Technology

- Focus on Data Science, Software Engineering and Machine Learning.
- **Relevant Coursework:** Machine Learning, Deep Learning, Distributed Systems, Computer Architecture, Optimization
- Completed 3 out of 4 years toward the degree

MAGSHIMIM & MAGSHIMIM +

3 Years

Ashdod & Verint Systems, Herzliya

- Selected for Israel's flagship cybersecurity excellence program.
- Learned C, C++, Python, SQL, Assembly, Cybersecurity and Networking.
- Participated in projects and hackathons including events hosted by **Check Point Software Technologies**.
- Selected into the advanced excellence program of Magshimim.
- Participated in industry sessions hosted at Verint Systems in Herzliya.

PROJECTS

MOBILE APPS

React Native • Firebase

- **Safsalim:** Community marketplace for free street items
- **3D Camera:** Synchronized multi-phone photography & 3D video generation

AI & MACHINE LEARNING

PyTorch • Python

- Image Classification Models
- Adversarial Attacks on Neural Networks
- Predictive Modeling

WEB APPLICATIONS

React Web • Firebase • GitHub Pages

- **Portfolio Webpage:** yoavazu.link
- **Wedding Seating Manager:** Interactive seating management
- **Commercial Bakery Website**

SYSTEMS & SOFTWARE

Java • Python

- **Smart Speaker:** Voice controlled smart speaker adapter
- Logistics Tracking System
- Generic 2-3 Tree Implementation

MILITARY SERVICE

Electronic Warfare Battalion 5114 (IDF)

COMBAT SOLDIER & EXECUTIVE AIDE TO DEP. BATTALION COMMANDER

- Completed advanced electromagnetic warfare training and participated in operational missions and field exercises.
- **Selected for promotion** from Electronic Warfare Combat Soldier to Executive aide to Deputy Battalion Commander after 1.5 Years.
- Coordinated operations and communication with **senior officers**.
- Awarded the Brigade Commander's **Excellence Certificate**.

WORK EXPERIENCE

SYSTEM INTEGRATOR & SUPPORT

1 Year

Rafael (Amarel Ltd.)

- Integrated and configured Rafael systems for customer environments.
- Trained and supported customers during exercises and live operations.
- Provided on-site technical support and troubleshooting.

ROBOTICS GUIDE & COORDINATOR

3 Months

Jewish Agency – New York City

- Led robotics and STEM workshops for children.
- Managed logistics and daily activities.
